

CEMENT

AND

LIME MANUFACTURE

INCORPORATING "PORTLAND CEMENT"

Published by Concrete Publications Ltd., 14 Dartmouth Street, London, S.W.1

INDEX to VOL. X, 1937.

	PAGE		PAGE
Aggregate, Clay as an	72	Incoue, K., and S. Nagai on Studies on mixed Portland cements	184, 256
Agricultural outlet for lime, The, by H. V. Garner ...	108	Knibbs, N. V. S., D.Sc., on Some chemical reactions and compounds of lime, 195; on The design and operation of modern lime works 4, 40, 73, 121, 139, 209, 240, 274, 301, 321	321
Air, Radiated heat for primary	3	Kühl, H., on Problems of clinker research ...	254
" separation in the cement and lime industries ...	227	Laeger, H., on A modern lime works in Germany...	12
Asbestos cement, Strength of, by G. Rosenbaum ...	329	Lea, F. M., D.Sc., F.I.C., on Special cements for mass concrete structures, 99; on Testing pozzolanic cements	170
Association for Testing Materials, International ...	25, 161	Lerch, W., and W. C. Taylor on Effects of heat treatment of Portland cement clinker ...	249
AUTHORS :		Löwenthal, J., on Tests on waterproofing materials	164
Bates, P. H., on Controlling the heat of hydration of cement	162	Nagai, S., and K. Incoue on Studies on mixed Portland cements	184, 256
Bolomey, M. J., on Effect of the addition of stone dust to cement on the qualities of concrete ...	222	Perfetti, E. A., on Tests on plastic mortars in relation to other tests	166
Bright, H. A., on Determination of sulphur occurring as sulphide in Portland cement ...	206	Platzmann, C. R., on Apparatus for studying the effect of aggressive solutions on mortar...	128
Brund, A., on Testing cement and concrete by electric heating	161	Platzmann, C. R., on The separation of magnesia from dolomite	325
Budnikoff, P. P., and L. Gulinova on Determination of the speed of slaking quicklime ...	26	Rodt, V., on The hardening of lime mortar ...	24
Butler, D. B., A.M.Inst.C.E., M.Inst.Struct.E., F.C.S., on Notes on lime	36	Rosenbaum, G., on Strength of asbestos cement...	329
Flint, E. P., and L. S. Wells on The system lime-boric acid-silica	94	Skramtajeve, B. G., on Reconditioning Portland cement deteriorated by prolonged storage ...	15
Frank A., and A. Gessner on Testing cements with plastic mortars	237	Steiner, D., on Refractory linings of cement kilns	17
Garner, H. V., on The agricultural outlet for lime	108	Taylor, W. C., and W. Lerch on Effects of heat treatment of Portland cement clinker ...	249
Gessner, A., and A. Frank on Testing cements with plastic mortars	237	Vrabek, J. S., on Closed-circuit grinding as an engineering problem	41
Gilbert, W., Wh.Sc., M.Inst.C.E., on The cooling of rotary clinker	187, 259	Watson, D. I., B.Sc., A.I.C., on Apparatus for studying the effect of aggressive solutions on mortar	88
Glanville, W. H., D.Sc., Ph.D., M.Inst.C.E., on Strength tests for high-alumina cement ...	167	Wells, L. S., and E. P. Flint on The system lime-boric acid-silica	94
Gronow, H. E. v., on The thermochemical basis of cement manufacture	111, 151	Autoclave test for constancy of volume of cement ...	129
Gulinova, L., and P. P. Budnikoff on Determination of the speed of slaking quicklime ...	26	Boric acid-silica, The system lime-, by E. P. Flint, and L. S. Wells	94
Gygi, H., on The thermal efficiency of the rotary cement kiln	289, 311	Bricks, Refractory	194
Haegermann, G., on Testing cements with plastic mortars	235	Cement and concrete, Testing	161
Hardgrove, R. M., on Direct firing of rotary kilns	131	" and lime, Research on	63, 296
Hellstrom, B., M.Inst.C.E., M.Am.Soc.C.E., on Methods of testing cements for large dams ...	168	Cements for mass concrete structures, Special, by F. M. Lea	99
Hornke, W., on The specific surface of cement ...	173	" Special	65

	PAGE
Cements, Studies on mixed Portland, by K. Inoue and S. Nagai	184, 256
The constituent compounds of set	63, 296
Chemical reactions and compounds of lime, Some, by N. V. S. Knibbs	195
Clay as an aggregate	72
Clinker, Effects of heat treatment of Portland cement, by W. Lerch and W. C. Taylor	249
research, Problems of, by H. Kühl	254
The cooling of rotary, by W. Gilbert	187, 259
Closed-circuit grinding as an engineering problem, by J. S. Vrabek	41
Coal pulverising plant, Design and operation of	233
Concrete, Refractory	95
Testing cement and	161
Constancy of volume of cement, Autoclave test	129
Conveying and elevating in the cement industry	90, 128
Cooling of rotary clinker, The, by W. Gilbert	187, 259
Dams, Methods of testing cements for large, by B. Hellstrom	168
Dolomite, The separation of magnesia from, by C. R. Platzmann	325
Electric heating, Testing cement and concrete by, by A. Brund	161
Elevating in the cement industry, Conveying and	90, 128
Finesness of Portland cement	65
Firing of rotary kilns, Direct, by R. M. Hardgrove	131
Foamed slag	297
Germany, A modern lime works in, by H. Laeger	12
Grinding as an engineering problem, Closed-circuit, by J. S. Vrabek	41
Gypsum cements, Gauging lime plaster undercoats with Portland and	126
Manufacture of Portland cement and sulphuric acid from	183
Hardening of lime mortar, The, by V. Rodt	24
Heat for primary air, Radiated	3
of hydration of cements, Controlling the, by P. H. Bates	162
treatment of Portland cement clinker, Effects of, by W. Lerch and W. C. Taylor	249
High-alumina cement, Strength tests for, by W. H. Glanville	167
Hydration of cement	64
of cements, Controlling the heat of, by P. H. Bates	162
Impervious lime mortar	11
International Association for Testing Materials	25, 161
Kiln, The thermal efficiency of the rotary cement, by H. Gygi	289, 311
Kilns, Direct firing of rotary, by R. M. Hardgrove	131
Refractory linings of cement, by D. Steiner	17
Leather industry, Lime in the	48
Lime-boric acid-silica, The system, by E. P. Flint and L. S. Wells	94
Lime-cement mortars, Properties of	96
Lime in the leather industry	48
mortar gauged with cement, Strength of brickwork built in	70
mortar, Impervious	11
mortar, The hardening of, by V. Rodt	24
Notes on, by D. B. Butler	36
plaster undercoats with Portland and gypsum cements, Gauging	126
Research on cement and	63, 296
Some chemical reactions and compounds of, by N. V. S. Knibbs	195
The agricultural outlet for, by H. V. Garner	108
works in Germany, A modern, by H. Laeger	12

	PAGE
Lime works, The design and operation of modern, by N. V. S. Knibbs	4, 49, 73, 121, 139, 209, 240, 274, 301, 321
Limes and plasters	70
and plasters, Testing	298
Magnesian	70
Linings of cement kilns, Refractory, by D. Steiner	17
Magnesia from dolomite, The separation of, by C. R. Platzmann	325
Magnesian limes	70
Mass concrete structures, Special cements for, by F. M. Lea	99
Materials, International Association for Testing	25, 161
Mixed Portland cements, Studies on, by K. Inoue and S. Nagai	184, 256
Mortar, Apparatus for studying the effect of aggressive solutions on	88
Apparatus for studying the effect of aggressive solutions on, by C. R. Platzmann	182
gauged with cement, Strength of brickwork built in lime	70
Impervious lime	11
The hardening of lime, by V. Rodt	24
Mortars in relation to other tests, Tests on plastic, by E. A. Perfetti	166
Properties of lime-cement	96
Specification for	63
Testing cements with plastic, by G. Haegermann	235
Testing cements with plastic, by A. Gessner and A. Frank	237
Panisset, The late S. G. S.	97
Particle size, Estimation of	328

PATENTS:

Admixture for cement	234, 255
Cement	181, 336
Cement and lime	287
Cements	160, 234, 335, 336
Cements and concretes	181
Colouring cement	255
Concretes and cements	335
Porous concrete	335
Preventing efflorescence of cementitious materials	255
Refractory linings for rotary furnaces	181
Refractory substances	335
Slag cements	287
Waterproofing cement, etc.	287
Plaster undercoats with Portland and gypsum cements, Gauging lime	126
Plasters, Limes and	70
Testing limes and	298
Plastic mortars in relation to other tests, Tests on, by E. A. Perfetti	166
mortars, Testing cements with, by G. Haegermann	235
mortars, Testing cements with, by A. Gessner and A. Frank	237
Pozzolanas	67
Pozzolanic cements, Testing, by F. M. Lea	170
Pulverising plant, Design and operation of coal	233
Quicklime, Determination of the speed of slaking of, by P. P. Budnikoff and L. Gulinova	26
Radiated heat for primary air	3
Reconditioning Portland cement deteriorated by prolonged storage, by B. G. Skramtjev	15
Refractory bricks	194
concrete	95
linings of cement kilns, by D. Steiner	17
Renderings	69

	PAGE		PAGE
Research on cement and lime	63, 296	Sulphide in Portland cement, Determination of sulphur occurring as, by H. A. Bright	206
Rotary cement kiln, The thermal efficiency of the, by H. Gygi	289, 311	Sulphuric acid from gypsum, Manufacture of Portland cement and	183
" kilns, Direct firing of, by R. M. Hardgrove	131	Sulphur occurring as sulphide in Portland cement, Determination of, by H. A. Bright	206
Separation in the cement and lime industries, Air	227	Surface of cement, The specific, by W. Hornke	179
" of magnesia from dolomite, The, by C. R. Platzmann	325	Test for constancy of volume of cement, Autoclave	123
Set cements, The constituent compounds of	296	Testing cement and concrete	161
Silica, The system lime-boric acid-, by E. P. Flint and L. S. Wells	94	" cement and concrete by electric heating, by A. Brund	181
Size, Estimation of particle	328	" cements for large dams, Methods of, B. Hellstrom	168
Slag, Foamed	297	" cements with plastic mortars, by G. Haegermann	235
Slaking quicklime, Determination of the speed of, by P. P. Budnikoff and L. Gulanova	26	" cements with plastic mortars, by A. Gessner and A. Frank	237
Solutions on mortar, Apparatus for studying the effect of aggressive, by D. I. Watson	88	" limes and plasters	298
" on mortar, Apparatus for studying the effect of aggressive, by C. R. Platzmann	182	" Materials, International Association for	25, 161
Special cements	65	" pozzolanic cements, by F. M. Lea	170
" cements for mass concrete structures, by F. M. Lea	99	Tests for high-alumina cement, Strength, by W. H. Glanville	167
Specific surface of cement, The, by W. Hornke	173	" of waterproofing materials, by J. Loventhal	164
Specification for mortars	63	" on plastic mortars in relation to other tests, by E. A. Perfetti	166
Stone dust to cement on the qualities of concrete. Effect of the addition of, by M. J. Bolomey	222	Thermal efficiency of the rotary cement kiln, The, by H. Gygi	289, 311
Storage, Reconditioning Portland cement deteriorated by prolonged, by B. G. Skramtjev	15	Thermochemical basis of cement manufacture, The, by H. E. v. Gronow	111, 151
Strength of brickwork built in lime mortar gauged with cement	70	Volume of cement, Autoclave test for constancy of	129
" tests for high-alumina cement, by W. H. Glanville	167	Waterproofing materials, Tests of, by J. Loventhal	164
Sulphate, Resistance of Portland cement to	130	Weighing in the cement and lime industries	32

"CONCRETE SERIES"

BOOKS ON CEMENT AND CONCRETE

The Publishers of this Journal have an extensive and growing list of up-to-date and really useful books on various aspects of Cement Testing and Cement Manufacture, Concrete and Reinforced Concrete Design and Construction, Design of Special Types of Structures, Shuttering, Estimating and Cost-keeping, Pre-Cast Concrete, and Allied Civil Engineering Subjects.
